About the CRF

Chendur Research Foundation (CRF) is a registered organization that has been in operation for the past 6 years with great success. One of the major focuses of CRF is to publish journal papers for SCI/SCIE, WOS/ESCI, SCOPUS, and UGC CARE listed I & II (Online and Print Journals). The conference is held once a year at the international and national levels. The conference's goal is to bring together national and international experts on a common platform to share the state of the art on a variety of topics related to Engineering, Medicine, Management, Arts and Sciences.

About PIET

PIET was established in the year 2006 by the Vidhyapeeth Education Trust and Located in the National Capital Region (NCR). The founders have a clear vision to provide world-class education and to promote research. Among some of the best Engineering Institutes in NCR, PIET stands out as a clear leader. A multidisciplinary institute affiliated to Kurukshetra University, Kurukshetra and approved by AICTE, New Delhi. PIET strives to encourage and make the budding scholars into skilled professionals through its various programmes e.g. Diploma, Undergraduate and Postgraduate programmes in different disciplines. PIET has consistently pushed the bar of excellence to garner a niche for itself amongst the top Institutes in Delhi/NCR in just a few years by being prudent and dedicated towards its aim of life ennobling engineering education.

ABOUT EMMA-2021

The CRF is organizing the first International Conference on Engineering, Medicine, Management, Arts, and Sciences (EMMA-2021). The primary goal of this conference (EMMA-2021) is to bring together experts and researchers from academia and industry to share their knowledge on implementations. To encourage faculty to pursue higher education and skill development in order to achieve. Encourage faculty and researchers to learn and develop new ideas from world-class excellence. To strengthen the institute through an alumni network. The conference features keynote addresses and invited talks by eminent invited speakers from around the world, as well as virtual presentations by researchers. This conference will also serve as a venue for young researchers to share and debate novel ideas. Because currently, the entire world is struggling against the pandemic Covid-19 including India, the EMMA Committees have decided for organizing the conference through full online meetings. You are welcome to contribute papers and attend the conference.
